IISDR – Building Capabilities for a Safer and Future-Ready Workforce

ABOUT THE INDUSTRY SAFETY MEET 2026

The **IISDR Industry Safety Meet 2026** is a specialised capacity-building platform designed for industry professionals, safety practitioners, HR professionals, emergency response teams, plant and operations personnel and other stakeholders responsible for workplace safety and organisational resilience.

The programme aims to strengthen the preparedness of industries to effectively anticipate, prevent, respond to and recover from workplace emergencies and critical incidents.

The Meet will bring together senior government officials, industry leaders, safety professionals and subject experts to deliberate on contemporary challenges and practical approaches in **industrial safety, emergency preparedness, employee welfare and social security**.

THEME

“Building Emergency-Ready Industries: Strengthening Safety, Preparedness & Resilience”

The programme will focus on developing a proactive safety culture and enhancing the capabilities of industry professionals to respond effectively during emergencies.

KEY OBJECTIVES

- Strengthen emergency preparedness and response capabilities among industry professionals.
- Promote a proactive and preventive approach towards industrial safety.
- Enhance understanding of emergency response systems and crisis management.
- Facilitate knowledge sharing between government authorities, industries and safety professionals.
- Create awareness on employee social security and welfare measures.
- Encourage industries to develop stronger systems for risk identification, prevention and mitigation.
- Promote a culture of safety, responsibility and organisational resilience.

ABOUT IISDR

Indian Institute of Skill Development and Research (IISDR) established under the aegis of Utkarsh Charitable and Welfare Trust (R) is an professional institution committed to advancing skills, research, capacity building, and professional development. **IISDR** regularly conducts training programs, workshops, and knowledge-building initiatives aimed at empowering individuals and organizations with contemporary skills and industry-relevant insights.

IISDR also focus on research and innovation, working to identify skill gaps and introduce new training modules that can contribute to the nation’s skill ecosystem. Our commitment extends beyond training; **IISDR** actively participates in community outreach programs, awareness campaigns, and livelihood initiatives to make a broader social impact.

Keynote Session

Industrial Safety & Emergency Preparedness

Keynote Speaker

Shri K. G. Nanjappa

Director - Factories, Boilers, Industrial Safety & Health
Government of Karnataka

The keynote address will provide valuable insights into the regulatory perspective, emerging safety challenges and the importance of preparedness and compliance in industrial establishments.

Technical Sessions

01 | INDUSTRIAL SAFETY & EMERGENCY PREPAREDNESS

Understanding the importance of preparedness, prevention and coordinated response mechanisms for industrial emergencies.

02 | EMERGENCY RESPONSE & CRISIS MANAGEMENT

Practical approaches to managing emergencies, strengthening response teams and ensuring effective coordination during critical situations.

03 | SOCIAL SECURITY & EMPLOYEE WELFARE

An expert session on social security provisions, employee welfare and the role of social security institutions in protecting the workforce.

04 | BUILDING A SAFETY CULTURE & INDUSTRY BEST PRACTICES

Workplace culture where every employee becomes an active stakeholder in safety. Sharing practical experiences, lessons learned and innovative approaches adopted by industries for improving workplace safety and emergency preparedness.
